

Tribal Technical Assistance Meeting Action Planning

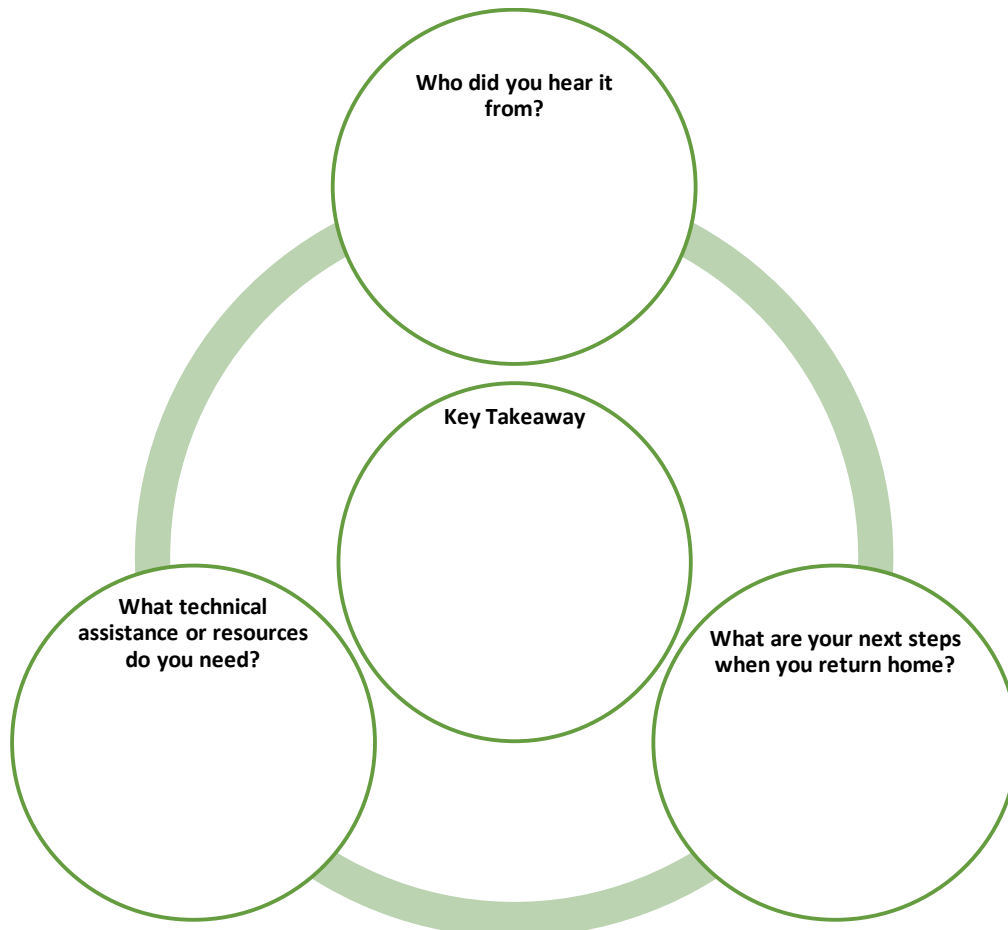

Administration for Children and Families, Office of Family Assistance Regions IV-VIII

Goal: To identify strategies, resources, and collaborations that will promote economic and social well-being for individuals, families, and tribal communities.

Activity: The first step to action planning is identifying your key takeaways. During each session, reflect on your takeaways and place them in the center of the planning graphics (pages 1-8). Also identify who you heard the takeaway from, next steps you would like to take regarding that takeaway, and any technical assistance or resources you need. During Regional Meetings, you will have time to organize your key takeaways from the meeting into an action plan (pages 9-10).

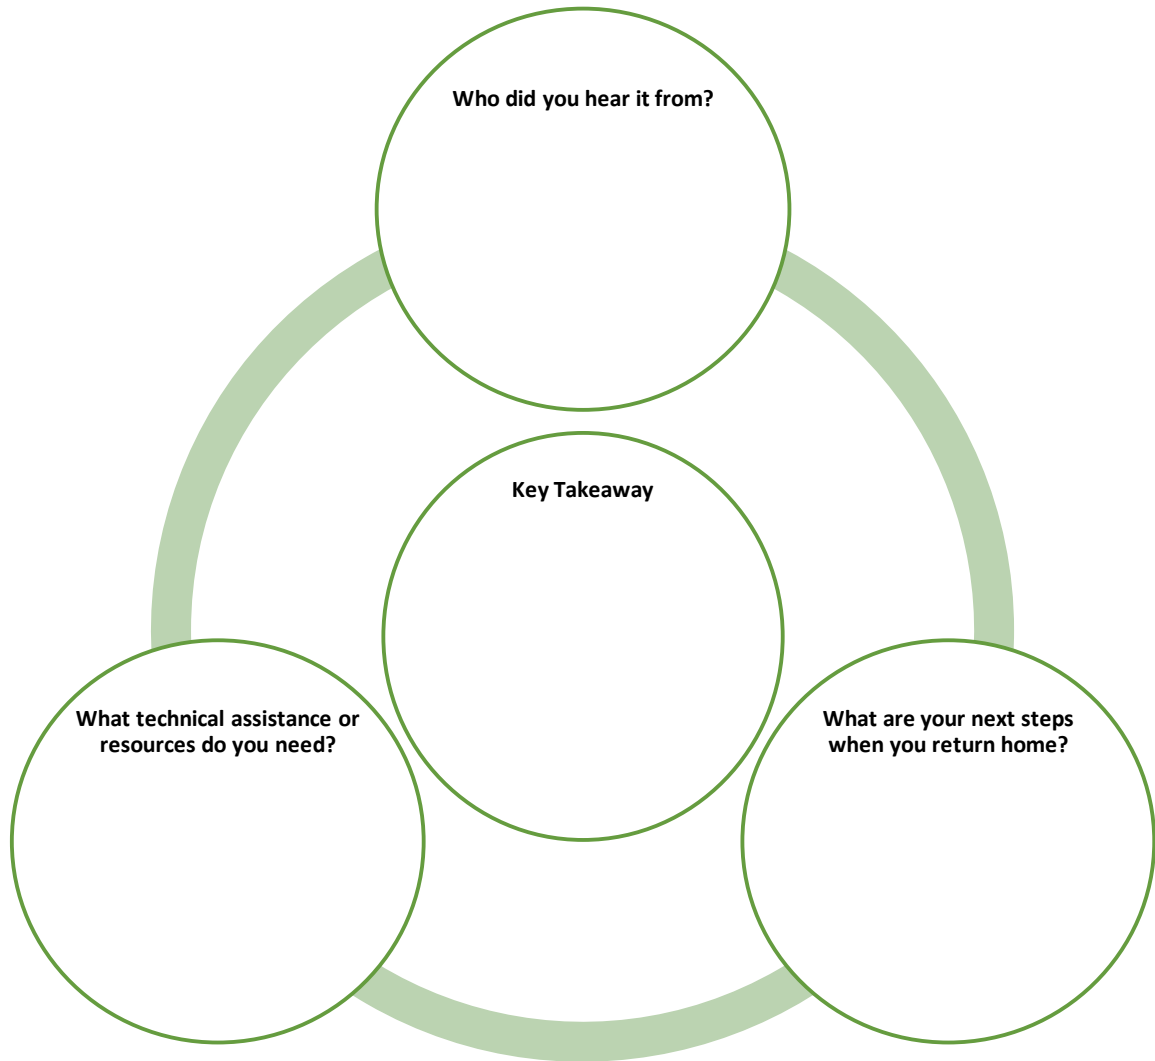

Target questions: What do you wish to achieve? How will you get there? Do you need to involve other people/programs? Do you have a target implementation date? What other resources do you need?

Session: *Listening Session with OFA Regional and Central Office Leadership*

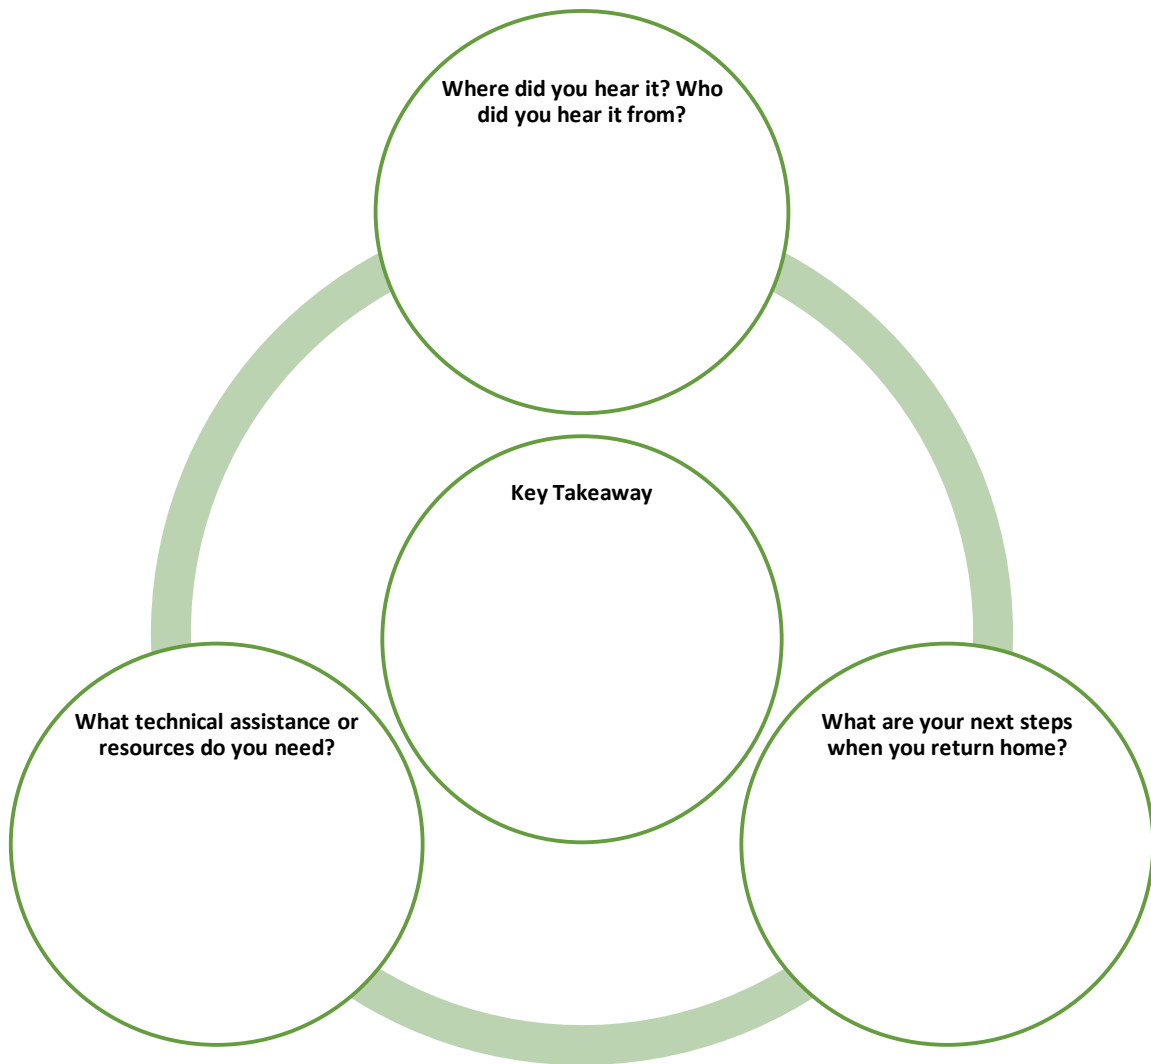

Session: Employment Strategies for Youth and the Hard to Employ

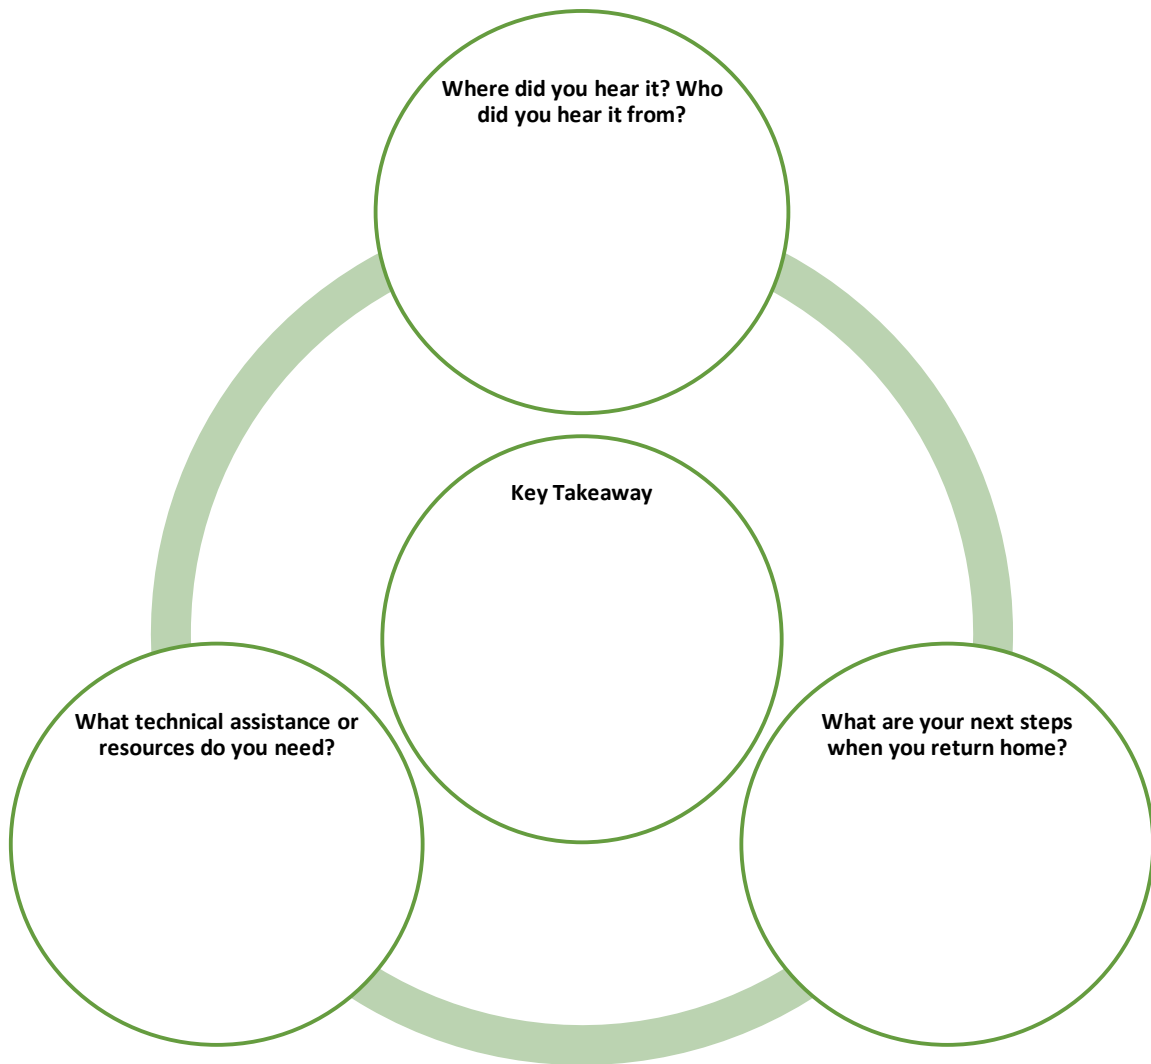

Session: Talking Circle Round One

Session: Talking Circle Round Two

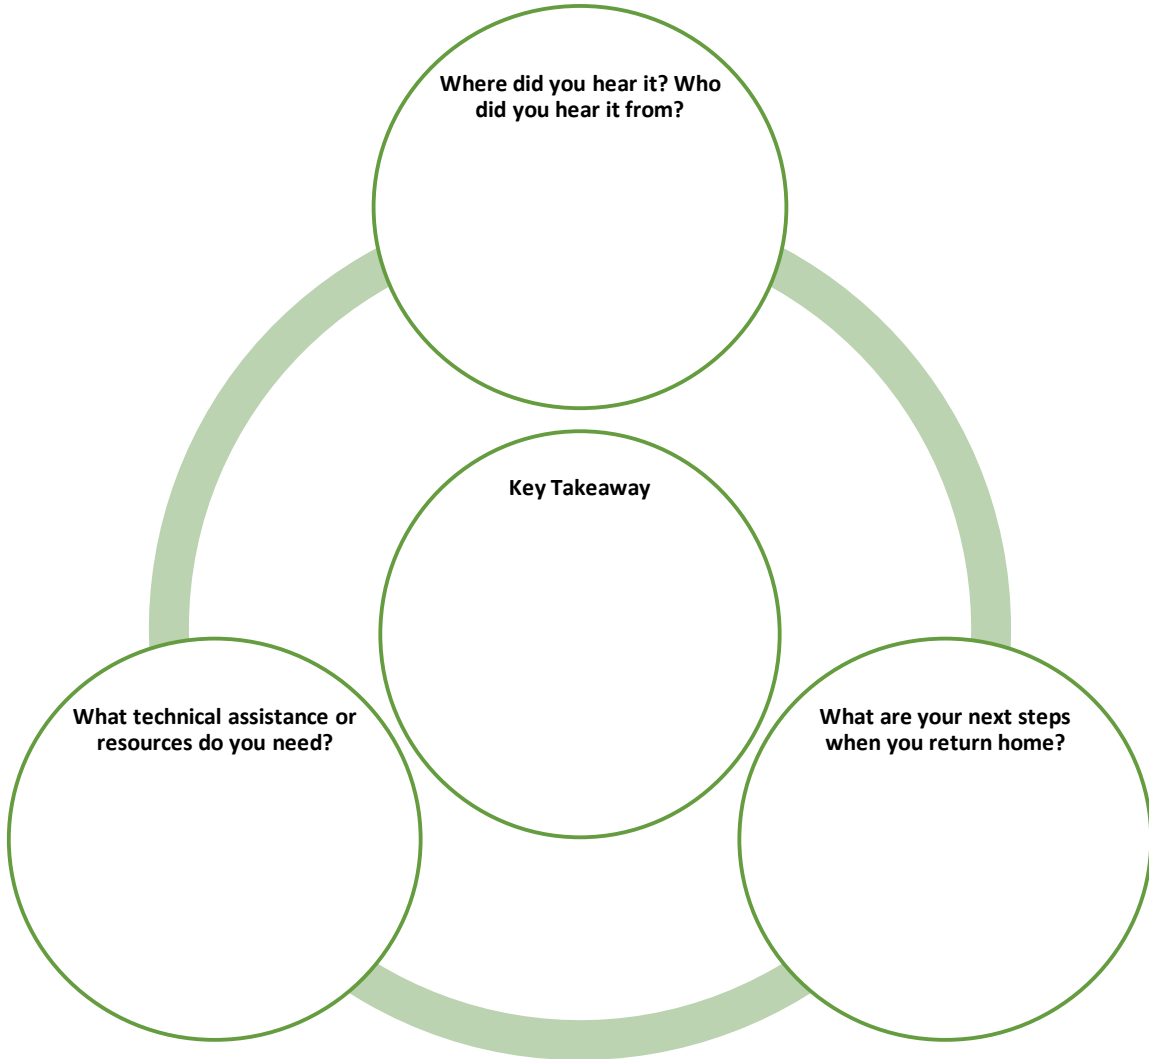

Session: Concurrent Tracks

Human Trafficking

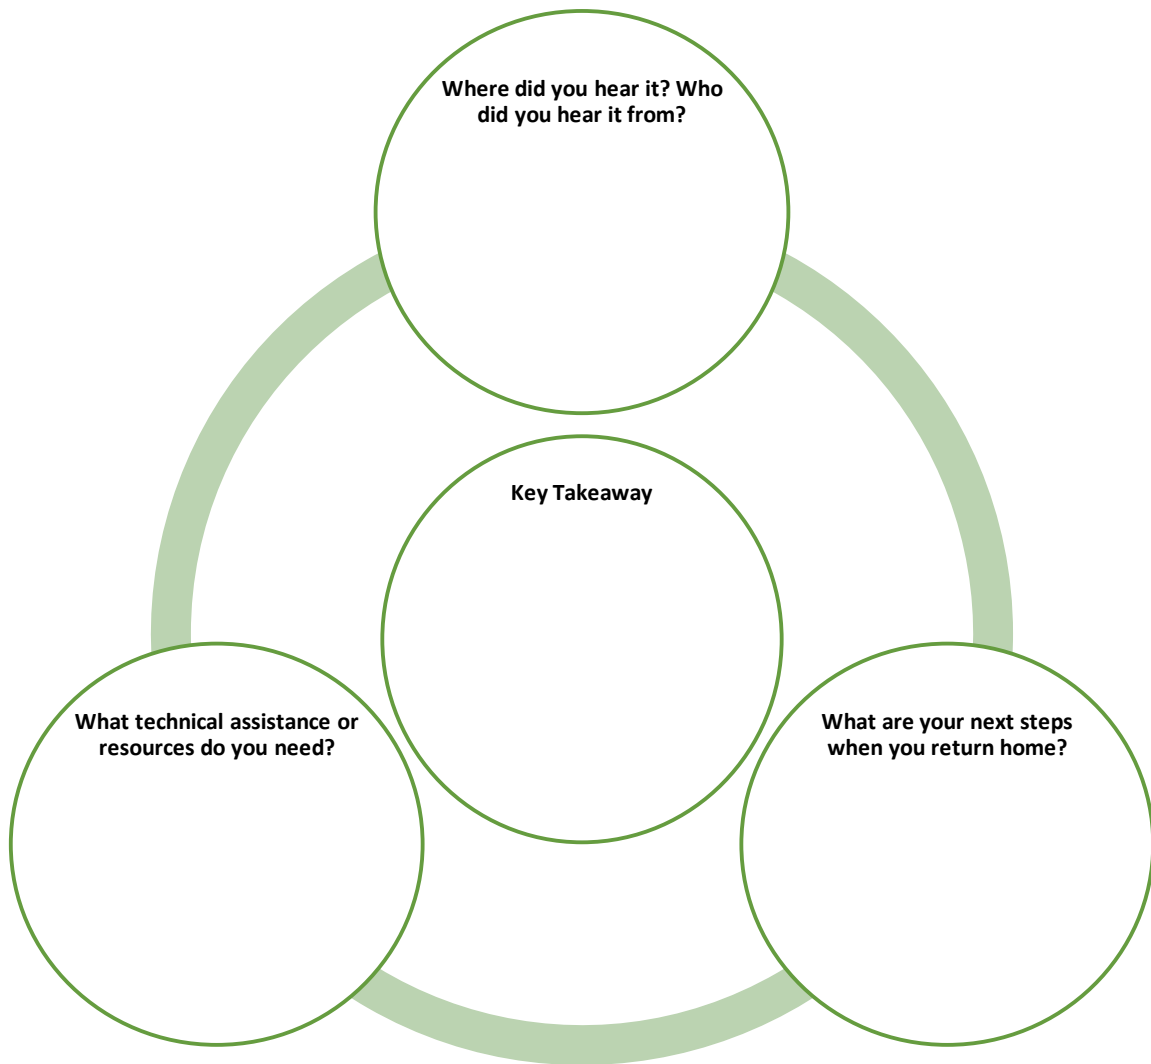

Economic Development

Multi-Generational Approaches

Session: The Power of Planning and Sharing Your Program's Story

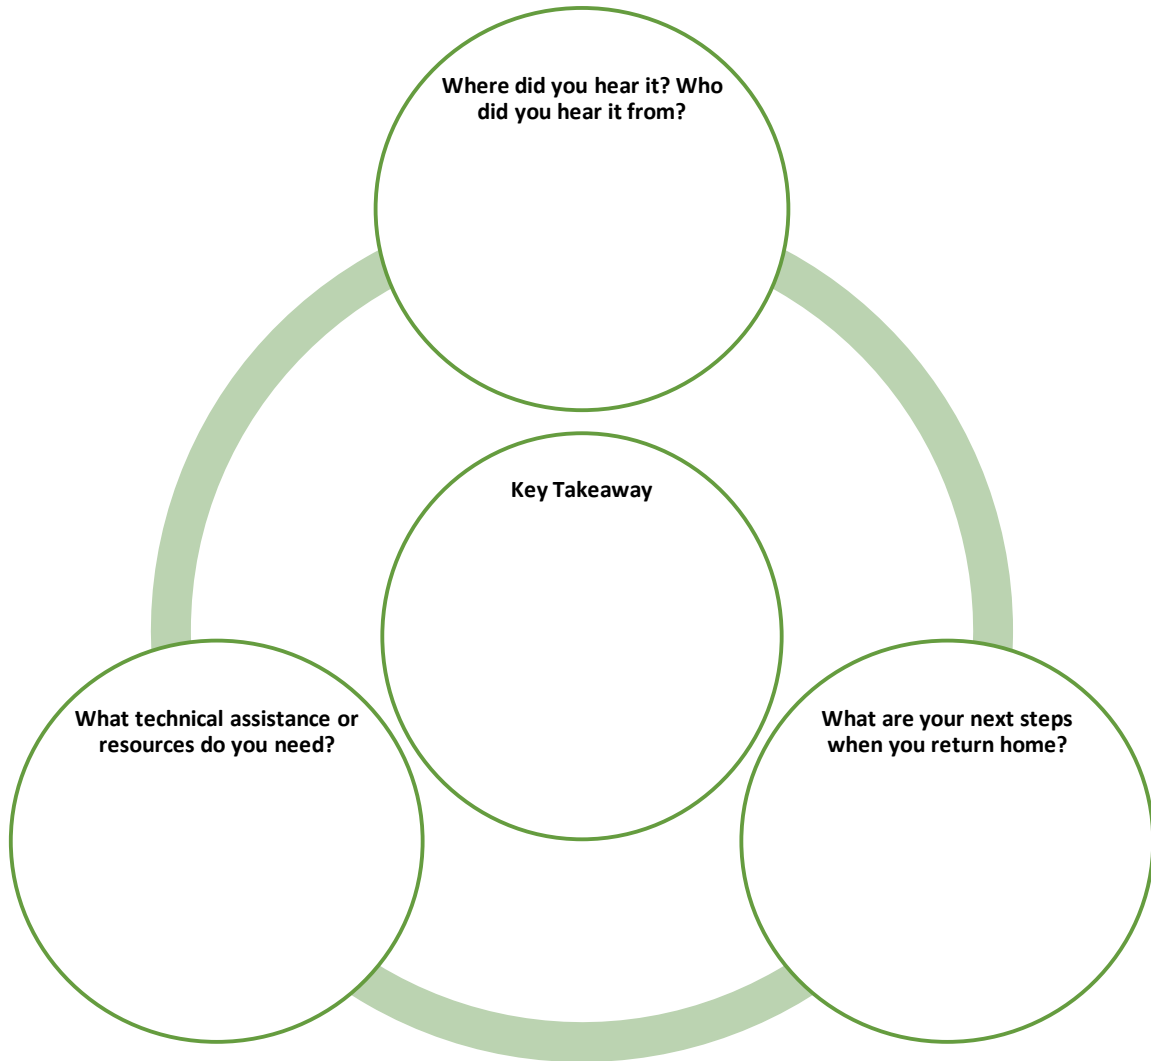

Session: Concurrent Tracks

Human Trafficking

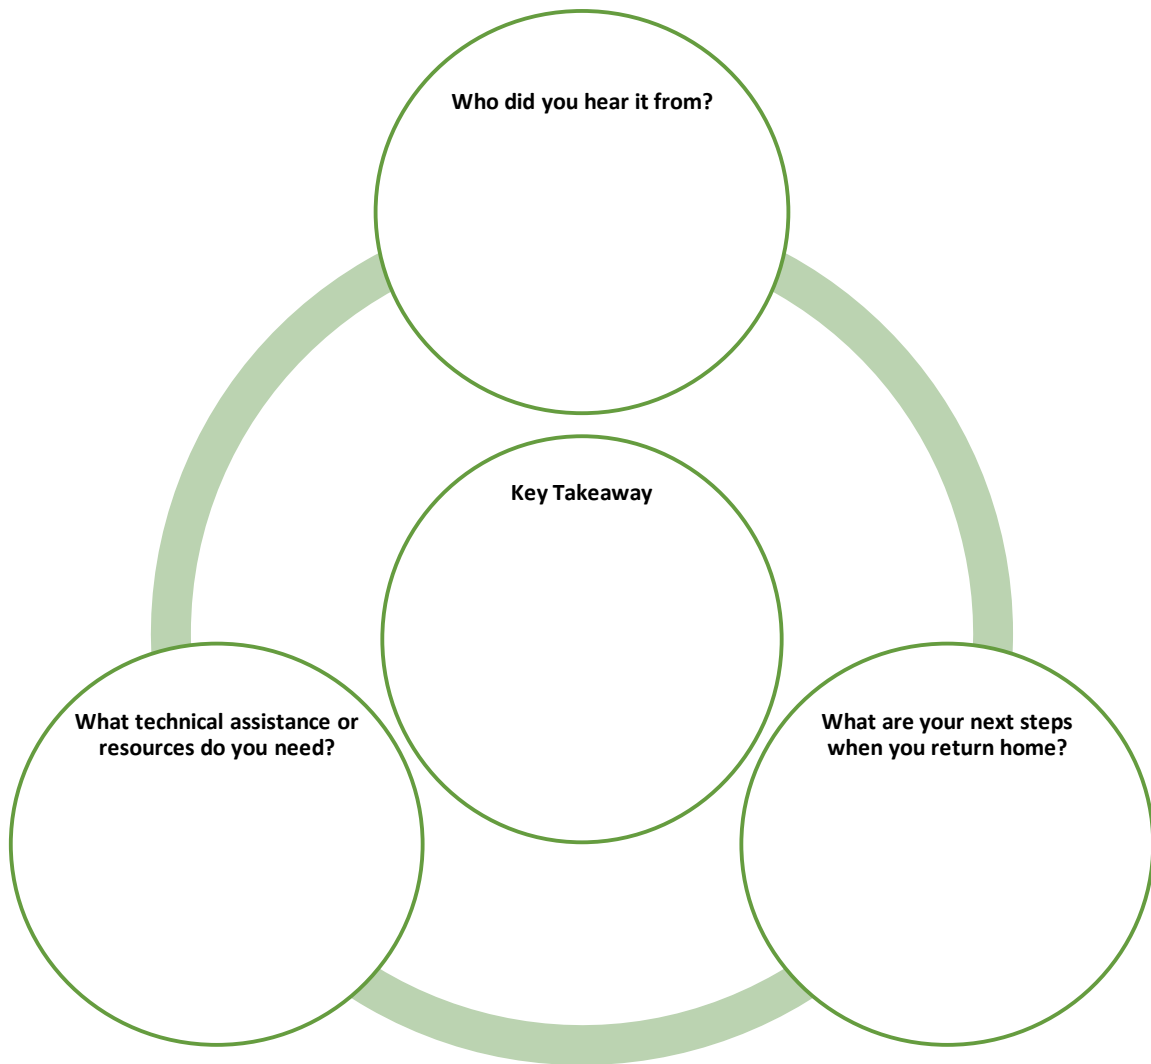

Economic Development

Multi-Generational Approaches

Session: Case Management Workshop
