## NOT HIRED!

You showed up late to the interview which made a very bad first impression. You looked sharper than Steve Harvey! You knew more about the company than the interviewer!

Tell me about a time when you had to deal with a person who was difficult to work with. [BACK...](#)

**Ideal Answer**

During a group project, I had a team member who didn't want to do work. I talked to him individually first to discuss the importance of his role.

**Why**

Don't talk about a specific person's trait. Focus on a particular situation involving someone and what you did to handle the conflict. They want to know that you are flexible and easy to work with.
