### Onward and Upward

- **Focus on equity**--We must be a leader in the fight for equity and strive to create programs that address persistent and systemic inequities.
- **Actively listen**—We must proactively listen to the individuals and communities we are serving to better understand their conditions and the things they yearn for to formulate better policies, programs and services that truly meet the needs of the individuals, families and communities we serve.
- **Data to drive action**--We must better leverage our data to understand the current conditions in our communities, the impact of our existing programs, and the opportunities to improve service delivery.
- **See the whole person**--We must always think about what each person needs to thrive, always considering the cultural, economic and social factors that impact people's lives.
- **Person-centered**--We must re-engage individuals and their communities so that programs are informed and structured to meet the diverse and unique needs of each community and person.
- **Culture of innovation**--We must courageously take new approaches to solve our most intractable problems.
- **Deliver on outcomes**--We must ensure that the delivery of our programs and services yield concrete and meaningful results.
