Two Generation Approach

Changing Outcomes For Children Facing Adversity Requires Transforming the Lives of Adults Who Care for Them

Violence
Mental Illness
Substance Abuse
Poverty
Adverse childhood Experiences

Strengthening foundational skills for parenting, employability, and responsible citizenship

Courtesy of Jack Shonkoff
Depressed Mothers are the “Hardest to Reach” but Most Necessary to Engage

- Between **28 and 61** percent of mothers in home visiting programs screened positive for depression.\(^1\)

  - Program effects may be greatest for mother’s with depression.\(^2,3\)

  - But these mothers usually drop out early or never enter programs.\(^4\)

- In Connecticut, only **35%** of depressed mothers referred to mental health care attended an appointment.

Ensuring the Emotional Health of Our City’s Families

THE NEW HAVEN MOMS PARTNERSHIP
How Moms Talk About Stress

- “Not having a full-time job and living paycheck to paycheck.”
- “Working and getting paid small amounts of money”
- “Being a single mom with three sons and not being able to give them everything they want”
- “Not being able to provide for my family in a way that satisfies me”
- “Feeling unable to provide children with friends, experiences”
Our Target Population

Percent of Mothers Reporting Emotional Health Need by New Haven Neighborhood

Legend
- New Haven Neighborhoods
- % Reporting Emotional Health Need
- 0.0%
- 0.1% - 25.0%
- 25.1% - 35.7%
- 35.8% - 44.4%
- 44.5% - 53.2%
- 53.3% - 61.1%
