

# FEP RE-FOCUS THROUGHPUT ROUNDS

**OUR GOAL:** Implement an enhanced case management approach that ensures the needs of the entire family are evaluated and managed with the intent of developing long-term self-reliance and employment.

**REINFORCE**  
concepts from training with staff. How do I implement what I learned in the training with my customers/caseload?

**SET GOALS**

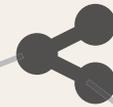

to support each training module

**GATHER**  
questions from staff

**SHARE** experiences within the teams — what is working?

**IDENTIFY**  
constraints or bottlenecks

**ANALYZE** items within local control (my workload or my office/team pathways)

**RECOGNIZE** items that are outside of my local control and provide my manager with recommendations

**CELEBRATE SUCCESS!**
