The Welfare Peer Technical Assistance Network (Welfare Peer TA) is a technical assistance initiative sponsored by the U.S. Department of Health and Human Services, Administration for Children and Families (ACF), Office of Family Assistance (OFA).

Welfare Peer TA facilitates the sharing of information between and among States, counties, localities, Tribal organizations, and community-based organizations working

with Temporary Assistance for Needy Families (TANF) families. Welfare Peer TA encourages the establishment of linkages between these organizations on the belief that guidance and instruction are best delivered by professionals who have achieved results and outcomes similar to those desired by other related social service organizations. Welfare Peer TA supports federal, State, local, Tribal, and community-based stakeholders by bridging gaps between research and practice, highlighting promising practices and service innovations in the field, and fostering strong peer-to-peer relationships that promote improved service delivery to low-income families.

Various technical assistance strategies and formats are available through Welfare Peer TA, depending on the specific needs of the requesting organization. These organizations can solicit the Welfare Peer TA Network for a technical assistance intervention that shares information on innovative strategies and programs for effectively serving TANF participants, and for purposes of building linkages within and among States and their agencies. Types of technical assistance delivered include Roundtable meetings, site visits, Webinars, promising practice reviews, and moderated teleconferences. Since its inception in 1997, Welfare Peer TA has reached every State in the United States with at least one technical assistance intervention and responded to over 170 requests over the life of the

What happens after you submit a Technical Assistance Request?

- TA requests are jointly reviewed by the Welfare Peer TA Network and the Administration for Children and Families (ACF) based on the following criteria:
 - The extent to which the technical assistance requested is likely to move TANF participants from welfare to work, self-sufficiency, and family stability.
 - The degree to which the area of requested technical assistance is related to TANF priorities:
 - Provide assistance to needy families so that children may be cared for in their own homes, or in the homes of relatives;
 - End of the dependence of needy parents on government benefits by promoting job preparation, work, and marriage;
 - Prevent and reduce the incidence of out-of-wedlock pregnancies and establish annual, numerical goals for preventing and reducing the incidence of these pregnancies, and;
 - Encourage the formation and maintenance of two-parent families.
 - The degree to which the requested technical assistance methods foster information exchange among States, Tribes, counties, and communities.
 - The extent to which the technical assistance requested may have value for other States/ Tribes or programs.
 - The cost-effectiveness of the requested technical assistance.
