# Subsidized Employment Local Impact: The Useful Information Measure

How is our Subsidized Employment program impacting local Village Economies?  
**Geographic Economic Stimulus**

**Fiscal Year 2011**

# Subsidized Employment Success: The Useful Information Measure

How is our Subsidized Employment program doing toward reaching Self-sufficiency?

## Mirroring Breakdown

# Requirements for success

- Recognition that Quality data gathering is a requirement
- Decision maker insight to define the questions before beginning to gather data so you have a chance to get the answers
- Making available the resources (time, funds, and infrastructure) to house and analyze the data
- Acknowledgement that data gathering is just the first step in the system development process. Useful information reporting is the only successful outcome.
