Revisions

OVERVIEW

To make changes to a submitted form, create a **Revision**. A Revision is an exact duplicate of the submitted form, only the data fields are open and modifications can be made. The original form with attachments and subsequent revisions are retained for historical purposes. All previously submitted forms are tracked and accessed from the “Report Form Status” page.

Important Instruction: Create a Revision when submitting an Annual Report for the same Report Period in which the Plan was already submitted, or when creating an Amendment.
