The Welfare Peer Technical Assistance Network (Welfare Peer TA) is a technical assistance initiative sponsored by the U.S. Department of Health and Human Services, Administration for Children and Families (ACF), Office of Family Assistance (OFA).

Welfare Peer TA facilitates the sharing of information between and among States, counties, localities, Tribal organizations, and community-based organizations working

with Temporary Assistance for Needy Families (TANF) families. Welfare Peer TA encourages the establishment of linkages between these organizations on the belief that guidance and instruction are best delivered by professionals who have achieved results and outcomes similar to those desired by other related social service organizations. Welfare Peer TA supports federal, State, local, Tribal, and community-based stakeholders by bridging gaps between research and practice, highlighting promising practices and service innovations in the field, and fostering strong peer-to-peer relationships that promote improved service delivery to low-income families.

Various technical assistance strategies and formats are available through Welfare Peer TA, depending on the specific needs of the requesting organization. These organizations can solicit the Welfare Peer TA Network for a technical assistance intervention that shares information on innovative strategies and programs for effectively serving TANF participants, and for purposes of building linkages within and among States and their agencies. Types of technical assistance delivered include Roundtable meetings, site visits, Webinars, promising practice reviews, and moderated teleconferences. Since its inception in 1997, Welfare Peer TA has reached every State in the United States with at least one technical assistance intervention and responded to over 170 requests over the life of the

Format of Technical Assistance:

What delivery method or format would you consider as your first choice for this technical assistance?

Moderated teleconferences: Training can be conducted via teleconferencing. This can be accomplished in one or more calls, and can be attended by more than one Tribal agency.

Peer-to-peer Roundtable: A similar or comparable program, who has had success in the area of requested TA, meets on site with the requesting program to provide peer training and share promising practices.

Site visit: An outside trainer is selected to visit the Tribal Agency on site, and provide training in the area requested

Workshop: Two or more Tribal Agencies, who have similar requests and needs, meet at a common location, and an outside trainer, is selected to provide the requested training at this location.

Participation

How many individuals (staff) from your Tribal TANF organization, and or other coordinating programs, do you anticipate participating in this technical assistance event? (Please list position titles)

Goals and Anticipated Outcomes

Based on the technical assistance areas selected, please answer the following questions related to your desires or vision for this event:

Please estimate how many TANF participants will potentially benefit from this event?

How many offices/locations/centers are expected to implement new initiatives or improved service delivery as a result of this event?

What is your expected timeframe for having completely integrated the lessons learned from this TA event?

0-3 months from date of event

4-6 months from date of event

6+ months from date of event

What are your expectations from this TA request, and how will you measure success?

How are TA Requests Reviewed?

- The extent to which the assistance requested is likely to move TANF participants from welfare to work, self-sufficiency, and family stability.
- The degree to which the area of requested assistance is related to TANF priorities:
 - Provide assistance to needy families so that children may be cared for in their own homes, or in the homes of relatives;
 - End of the dependence of needy parents on government benefits by promoting job preparation, work, and marriage;
 - Prevent and reduce the incidence of out-of-wedlock pregnancies and establish annual, numerical goals for preventing and reducing the incidence of these pregnancies; and
 - Encourage the formation and maintenance of two-parent families.

How are TA Requests Reviewed?

- The degree to which the requested technical assistance methods foster information exchange among Tribes, States, counties, and communities.
- The extent to which the technical assistance requested may have value for other Tribes, States, or programs.
- The cost-effectiveness of the requested technical assistance.

Once your TA Request is received, you will be contacted by the Welfare Peer TA Network within three business days to discuss next steps.
